## ADDENDUM TO GRANT dated 2.22.89 .

- Before cutting, all fences shall be H-braced prior to installation of the temporary "gap." Such H-braces shall be left in place following construction.
- 2. The top ten (10) inches of soil shall be removed and separated in the first trenching operation. The subsoil shall be removed and set aside separately. Upon backfilling, the subsoil shall be replaced in the lower part of the trench and the top soil in the upper part of the trench, all of which shall be properly compacted.
- 3. Grantee shall repair any drainage tile damaged as a result of Grantee's construction Candistall give Grantor a reasonable opportunity to inspect field tile repairs prior to backfilling.
- 4. Grantee agrees to remove, with reasonable diligence, all rocks larger that 3" Indianeter that are brought to the surface as a result of Grantee see construction activities, as well as all debris left by Grantee's construction activities.
- 5. Grantee agrees that if it shall pay any landowner in this township more on a per lineal rod basis for rights over farm land than is being paid under this agreement, between the above mentioned owners the difference amount paid per lineal rod hereunder and the
- in this township for additional line in this township for additional line in this township for additional line in this township for additional line. It is township for additional line in the state of the said project, provided, that no payment shall be made on account of a higher amount paid to a landowner (1) in settlement of a duly filed condemnation suit, or (2) who is paid a total of \$100.00 or less for additional line
- 6. The cable and all appurtenances shall be buried with a minimum cover of forty-eight (48) inches, except warning tape which shall be buried a minimum of twenty-four (24) inches, and except that above-ground cable markers and testing terminals may be located at the fence lines and roads across the right of way.

7. This grant is for one communications system only.
