#### (D) Limits on Interest Rate Changes

The interest rate will never increase or decrease by more than one percentage point (1.0%) on any single Change Date. The interest rate will never be more than five percentage points (5.0%) higher or lower than the initial interest rate.

### (E)=Calculation of Payment Change

If the interest rate changes on a Change Date, Lender will calculate the amount of monthly payment of principal and interest which would be necessary to repay the unpaid principal balance in full at the maturity date at the new interest rate through substantially equal payments. In making such calculation, Lender will use the unpaid principal balance which would be owed on the Change Date if there had been no default in payment on the Note, reduced by the amount of any prepayments to principal. The result of this calculation will be the amount of the new monthly payment of principal and interest.

### (F) Notice of Changes

Borrower shall have no obligation to pay any increase in the monthly payment amount calculated in accordance with Paragraph (E) of this Rider for any apayment date occurring less than 25 days after Lender has given the required notice. If the monthly payment amount calculated in accordance with Paragraph (E) of this Rider decreased, but Lender failed to give timely notice of the decrease and Borrower made any monthly payment amounts exceeding the payment amount which should have been stated in a timely notice, then Borrower has the option to either (i) demand the return to Borrower of any excess payment, with interest thereon at the Note rate (a rate equal to the interest rate which should have been stated in a timely notice), or (ii) request that any excess payment, with interest thereon at the Note rate, be applied as apayment of principal. Lender's obligation to return any excess payment with interest on demand is not assignable even if the Note is otherwise assigned before the demand for return is made.
